### Why I am a Rotarian?

*(By Edward F. Cadman.; Edward is an orthopedic surgeon, President, Rotary International 1985-86 and member of the Rotary Club of Wenatchee, Washington, USA - Courtesy "Rotary Wisdom-Reflections on Service")*

I joined Rotary for the same reasons most other Rotarians do. None of us joined our organization to change the world. Many of us knew little of Rotary programs. Most of us were seeking an opportunity to extend fellowship and make new acquaintances.

The full impact of Rotary came to us slowly. We gradually became involved in the "Spirit of Rotary". Whatever the "Spirit of Rotary" is, it involves friendships developed, the willingness to help with community concerns, the attempt to understand all men's callings, and a love for our fellow man.

Joining Rotary was not accompanied by a clash of cymbals - or beating of drums - nor blare of trumpets. There were no shafts of light from the heavens, no roll of thunder - nor bolts of lightning. We soon found ways we could help causes and people, and that is when the great metamorphosis from mere mortal man to a Rotarian began. It was when we heard about "Service Above Self," and believed.

Gradually we were caught up in the web of Rotary goodness. Rotarians are not born – Rotarians are made. It's a slow, gradual process from the time we join Rotary until we become Rotarians. The trip is worthwhile. It's trite to say the more we put into Rotary the more we get out. Over the years as we become consumed by Rotary we find the personal warmth and love that we receive simply outweighs any effort we can make for Rotary and our fellow human beings.

Mark me as one who shares the philosophy of About Ben Adhem, as expressed in the poem of that title by Leigh Hunt: "I pray thee then, Write me as one who loves his fellow men."

## The RCHE Family

### Rtn Mohan Reddy

It was on a Sunday, when I got a call from Mamta Sagar asking me to interview one of the Rotarians. Without a

moments hesitation I said it would be Rotarian Mohan Reddy. I always wanted to know about this shy, reticent person, who spoke sparingly. Ram once mentioned Mohan's achievements. I felt it was incredible and knowing about this enigma wrapped in a mystery was a great opportunity. I called to fix an appointment and he said he would inform me about it. As time was flying I played the typical journalist and I chased him unashamedly thorough my phone calls. At last he agreed to the rendezvous at his apartment amidst his loving family.

My impression of Mohan was proved wrong at the outset as he talked so amicably. He is from a large family with six brothers and three sisters. He had his schooling at the Government high school, Rajendranagar and later graduated in commerce and did his post graduation in marketing. His favourite sport and hobby is cricket. In a lighter vein he said that he would have been a cricketer if he had not got into business. I feel either way he would have been quite successful. I am sure that sportsman spirit has elevated him to this height.

Before me sat this young successful man who has made it big in the field of orthopaedic implants. His business deals extend to Europe, Israel and the United States. Dawn to dusk he is besieged by phone calls for the supply of these implants. He assists the orthopedics at times. I asked him what was his first experience witnessing an operation and he said it was thrilling. I think for me it would be chilling. This shows his deep interest and dedication to his work. He toured many countries, a multifaceted personality who heads Globe Surgicals, his own business venture, which he has single handedly built to this great height.

I couldn't stop admiring this happy family. His better half Padma with her infectious smile is the woman behind his success. Mohan will give you the moon if recommended by his sweet daughter Divya. What appealed to me the most was when he said that however busy he is he attends to Divyas phone calls. So folks, next time you want anything from Mohan make a beeline to Divya. I asked Padma and the kids if they miss Mohan as he is quite busy but I was told that he spent enough time with them and attended to each and every need of the family.

Mohan joined Rotary in the year 1998. He feels that he can help the poor and the needy patients through his interaction with rotary. He is a man who maintains a low profile with a serenity of mind, gentleness, moderate in speech, self-control and purity of mind. These are all his hallmarks. After the wonderful talk I thanked him for giving me his valuable time. I drove home with disbelief in my eyes and ears, as Mohan wasn't the shy, reserved person I thought he was. A vessel, which is full, doesn't make a sound and I equate him with that.
